

M-Ax Mount

P/N: MX-0001

Details//

- Lightweight, 1.1 oz.
- Low Profile Design
- Compatible with the Ops-Core F.A.S.T. Helmet w/ARC

*Patent Pending

Purpose//

For those that require a powerful helmet mounted flashlight during search operations, you will appreciate the range of motion of the Multi-Axis Mount. Aim the light where you need it...done. Dubbed the M-Ax Mount, this super small assembly attaches to the Ops-Core F.A.S.T. Helmet ARC system and takes the flashlight up and above the helmet rail, nesting it in a low profile position.
